

# HOW IS LEGEND'S LEGO-ROBOTICS PROGRAM UNIQUE?

**Curriculum Teaches Connections of Science, Technology, Engineering, and Math:** Students at Legend learn more than just pressing buttons to make the robots move.

**Lego is Only a Starting Point:** Legend offers enrichment programs as well as high school credit courses above and beyond the camps, paving the way to fulfill the students' aspirations in STEM professions.

**Year Round Learning Opportunities:** Learning does not stop after summer. Legend offers year-round programs that build upon the summer learning and offer opportunities to further exploration and studies.

**Conducted by Professional and Trained Instructors:** Classes are conducted by mature professional teachers who have gone through Legend's curriculum and classroom management training.
